I am a kind person that practices the relgion Anabaptist who is Demisexual and remarried. I also have OCD but this doesn't define me and I am a hardworker. Define problems and patterns to marry the right technology to right opportunity. *Engage with internal and external teams to create big-data backbones to enterprise analytics solutions. *Provide Non-Relational Modeling and technical guidance to enable the achievement of business objectives. *Communicate with senior leadership, scientists, and engineers to build consensus and confidence in data and platform architecture.
